Spiritczualic Enhancement Center is a serendipitous-jazz-cult achieving states of spectral-jamming. As the self-appointed con-artists of the "Jazz Circus", they've gathered outernational troupes of exploratory instrumentalists from all over the Fourth World.

Spiritczualic (hard "tch") - an esoteric melange of ritualism and spiritism.

Psychedelic-punk eclecticism will be adventurously harnessed in 2023 as we voyage to unknown destinations of auditory hallucination.
